

“Nowadays, the the Brazilian bikini wax is very popular among the younger generation. “

History of Brazilian Wax

- Ancient Egyptian woman started eliminating unwanted areas of pubic hair.
- And for centuries, women in the Middle East have used a process called sugaring.
- The practice, often begun just before a woman's wedding night, was and still is intends to make a woman clean and pure for their husbands.
- In 1922, caring razors and depilatories furnished American woman with the ability to de-fuzz in the privacy of their own homes.
- But it was the birth of the bikini, that unruly hairs peeking out of skimpy bottoms became a real issue.
- By the '60's, soft resin-based waxing kits were being sold at salons.
- By the late '80's and early '90's, the term Brazilian bikini wax is used as marketing concept, where young women kept very bare bushes in order to wear teeny-tiny string bikinis.
- Aided by the media and celebrity endorsements, the Brazilian took off.

The idea of hygiene and cleanliness is very well accepted by all in this generation and it is not uncommon for young men seeking out a good salon for a boyzilian.

Questions and Answers on Waxing – Hair Removal—Depilation

What is waxing - hair removal?

This is an alternative to hair removal creams or gels and shaving. You can wax your legs, arms, underarms, upper lip, chin, eyebrows, bikini or have a Brazilian wax.

What to expect?

When you arrive, you'll be taken to a private waxing area, depending on the area you wish to wax, the therapist will cleanse & prepare you for the waxing treatment.

Does waxing hurt?

While the benefits of waxing are without question, some women still see the treatment as too painful to endure. Not any more! You can now experience a relatively pain free method of waxing.

Is waxing just for women?

No, this service is also available for men who would like to remove hair on their backs, neckline, eyebrows and ears.

Why not just shave?

Shaving stimulates potential hair growth & strengthen the hair follicle. Shaving also cuts the hair, which re-grows with a "stubby" feel.

Will the hair grow back darker and thicker after waxing?

No, on the contrary, it comes back softer, thinner and weaker over time. The more often you wax, the better. We recommend that you do not shave in between waxing.

Can I do my own waxing?

Yes & no. It depends on the area & the amount of hair needed to be waxed. We do not recommend that you wax delicate area by yourself.

What is Brazilian Bikini Wax?

A traditional Brazilian Bikini Wax leaves a vertical strip in the front, hair is not removed from the labia. A full Brazilian or a Full Monty as some calls it, removes everything, completely smooth everywhere under your underwear.

Why Brazilian Waxing?

With a Brazilian Wax, you will not have the stubble, itch or the razor burn that comes with shaving and you don't have to worry about slicing yourself with a razor blade. And above all, you'll never have to worry about "escaping tendrils" again.

What about ingrown hair?

This varies from individual to individual, due to the random direction of hair growth in the area, ingrown are possible. To avoid this, we recommend that you adhere to the after-wax regime of exfoliation and more exfoliation and to use an after wax cream to sooth the area treated.

Can Brazilian Wax be done in stages?

We understand that going bare all at once can be a jarring experience. Feel free to take it slow, you can start off with a bikini wax which removes the hair around your actual bikini line. Next, try a "full" bikini, which removes most of your pubic hair. When you are ready, move on to the full Brazilian Wax.

What should I avoid before and after a waxing treatment?

- If you are using accutane, or any other anti-acne drugs, please consult with your doctor before a wax, these medications can sometimes thin the skin which can cause skin to be removed with the wax.
- If you are using RetinA, you should not wax the area being treated.
- Do not swim, suntan or work out right after a wax as this could cause the skin to breakout.
- You are advised to give yourself a scrub on the area being treated, this will help reduce ingrown.
